TECHNICAL SKILLS

Languages: C#, JavaScript

Frameworks: ASP.NET Core, React.js, Node.js

Databases: SQL Server (MSSQL), MongoDB

Tools: Git, GitHub, Postman, Visual Studio, VS Code

Concepts: Layered Architecture, REST APIs, JWT Authentication, LINQ

EDUCATION

Bachelor of Computer Application (2nd Division)
Indira Gandhi National Open University
Regional center- Kolkata
Year-2022
Grade-60%

CERTIFICATIONS

React.js front-end development training
Ejobindia
April, 2024 – August, 2024
SDF Building, Bidhannagar, Kolkata-700091
Grade-77%

PROFESSIONAL SUMMARY

Backend Developer with 1+ year of professional experience in designing and developing scalable web applications using ASP.NET Core Web API and React.js. Skilled in designing RESTful APIs, SQL databases, and frontend integration. Experienced in working with layered architecture, clean code practices, and collaborative development environments.

WORK EXPERIENCE

Backend Developer

Ebits Technologies | Feb, 2025 – Present

- Developed and maintained RESTful APIs using ASP.NET Core Web API
- Implemented layered architecture (Controller, Service, Repository, DTO)
- Optimized SQL Server queries using LINQ, improving response time
- Integrated authentication and authorization using JWT

PROJECTS

ERP System – Restaurant & Hotel Management

Technologies: ASP.NET Core Web API, React.js, SQL Server

- Worked on an ERP application for restaurant and hotel operations, supporting day-to-day business workflows
- Developed RESTful APIs using ASP.NET Core Web API for core ERP modules
- Built React-based user interfaces for smooth and responsive user experience
- Implemented modules for order management, billing, inventory, and user roles
- Integrated frontend with backend APIs using Axios for real-time data handling
- Designed and optimized database operations using SQL Server and LINQ
- Implemented authentication and role-based access control for admin and staff users
- Collaborated with team members to enhance performance, usability, and system stability
